

Hi-resolution Class D POWER amplifier
MODELLO : **DHP500**

Class D technology : DHP-500.

DHP-500 is a power amplifier with dual mono construction, two analog unbalanced line inputs and one real balanced input .

The great reservoir power output supply right and gently energy for every loudspeaker system at low and high efficiency.

The construction respects a real massive cabinet made from hi-thickness sheet, the front panel is a special extruded plexiglass at 15 mm.

The circuit is based from special module works in class D.
